

Olema Oncology Reports Inducement Grant Under Nasdaq Listing Rule 5635(c)(4)

April 18, 2022

SAN FRANCISCO, April 18, 2022 (GLOBE NEWSWIRE) -- [Olema Pharmaceuticals, Inc.](#) ("Olema," "Olema Oncology" or the "Company," Nasdaq: OLMA), a clinical-stage biopharmaceutical company focused on the discovery, development, and commercialization of targeted therapies for women's cancers, today announced that the Company granted a stock option to one new employee to purchase 20,000 shares of the Company's common stock, effective as of April 1, 2022. This award was approved by the Compensation Committee of Olema's Board of Directors and granted under the Company's 2022 Inducement Plan, with a grant date of April 1, 2022, as an inducement material to the new employees entering into employment with Olema, in accordance with Nasdaq Listing Rule 5635(c)(4).

The stock option vests over four years, with 25 percent vesting on the first anniversary of the vesting commencement date for such employee and the remainder vesting in 36 equal monthly installments over the following three years, subject to the employee being continuously employed by Olema as of such vesting dates. The stock option has a 10-year term and an exercise price of \$4.10 per share, equal to the last reported sale price of the Company's common stock as reported by Nasdaq on April 1, 2022. The stock option is subject to the terms of the Olema Pharmaceuticals, Inc. 2022 Inducement Plan.

Olema is providing this information in accordance with Nasdaq Listing Rule 5635(c)(4).

About Olema Oncology

Olema Oncology is a clinical-stage biopharmaceutical company focused on the discovery, development and commercialization of targeted therapies for women's cancers. Olema's lead product candidate, OP-1250, is an orally available small molecule with combined activity as both a complete estrogen receptor (ER) antagonist (CERAN) and a selective ER degrader (SERD). It is currently being evaluated as a single agent in an ongoing Phase 1/2 clinical trial, and in Phase 1b combination with palbociclib, in patients with recurrent, locally advanced or metastatic ER-positive (ER+), human epidermal growth factor receptor 2-negative (HER2-) breast cancer. Olema is headquartered in San Francisco and has operations in Cambridge, Massachusetts.
